

01 / 08 Meet the exact X12.5

X12.5

OFFICIAL FILM

EXACT X12.5 / OFFICIAL O2NAILS FILM

Recognize the integrated display, front print opening, client-hand path and owner-service boundary on the real black-and-gold machine.

ORIENT TO

- The exact black-and-gold X12.5 chassis
- The integrated display

ALLOWED NOW

Watch the optional source film or read this complete English equivalent.

STILL ON HOLD

Power-up, case access, cartridge handling, screen actions and printing remain on Hold.

Optional official source + complete English equivalent in the Owner Orientation Guide

Open the full X12.5 Owner Orientation

02 / 08 Plan the fixed station

X12.5

CURRENT UNIT

EXACT-UNIT CHECKPOINT / WRITTEN CONTROL

Understand the future station standard: stable surface, dry zone, protected cable route and comfortable hand clearance.

ORIENT TO

- A stable and dry location
- A cable path outside feet, wheels, heat and liquids

ALLOWED NOW

Choose a possible dry, stable location.

STILL ON HOLD

Do not connect power, route a supplied cable as an operating step, or place a hand in the opening from this orientation guide.

Current-unit checkpoint + complete English orientation in the Owner Orientation Guide

Open the full X12.5 Owner Orientation

03 / 08 Understand the integrated-screen boundary

X12.5

CURRENT UNIT

EXACT-UNIT CHECKPOINT / WRITTEN CONTROL

Prepare to verify the authorized owner, normal startup and visible software information on the exact current screen.

ORIENT TO

- The integrated display belongs to the X12.5 route
- Passwords and one-time codes must stay private

ALLOWED NOW

Identify who is authorized to use the owner account.

STILL ON HOLD

Do not power on, sign in, reset an account, enter a code or copy another model's screen route from this guide.

Current-unit checkpoint + complete English orientation in the Owner Orientation Guide

Open the full X12.5 Owner Orientation

04 / 08 Understand network and design access

X12.5

CURRENT UNIT

EXACT-UNIT CHECKPOINT / WRITTEN CONTROL

Prepare to verify a trusted network and a rights-safe practice design through the current integrated-screen path.

ORIENT TO

- Trusted private studio network
- Visible connection and design-library state

ALLOWED NOW

Choose a trusted private network for the future session.

STILL ON HOLD

Do not connect, enter credentials, accept a certificate warning or copy a phone-only route from this guide.

Current-unit checkpoint + complete English orientation in the Owner Orientation Guide

Open the full X12.5 Owner Orientation

05 / 08 Recognize SM10 cartridge handling

X12.5

OFFICIAL FILM

SHARED SYSTEM / REAL O2NAILS PROCEDURE

See a real shared O2NAILS cartridge procedure while keeping the exact X12.5 bay, current label and no-force rule in control.

ORIENT TO

- Protected contacts and nozzle surfaces
- Upright handling

ALLOWED NOW

Watch the optional source or read this English equivalent.

STILL ON HOLD

Do not open, insert, remove, test, clean or force a cartridge from this orientation guide.

Optional official source + complete English equivalent in the Owner Orientation Guide

Open the full X12.5 Owner Orientation

06 / 08 Recognize calibration and positioning

X12.5

OFFICIAL FILM

SHARED SYSTEM / REAL O2NAILS PROCEDURE

Understand the relationship among crop, nail frame, supported hand position and safe clearance without copying a historical interface.

ORIENT TO

- How the nail is framed
- One-variable alignment changes

ALLOWED NOW

Watch the optional source or read this English equivalent.

STILL ON HOLD

Do not place a hand or practice nail into the opening, move a mechanism, or copy a button or value from this guide.

Optional official source + complete English equivalent in the Owner Orientation Guide

Open the full X12.5 Owner Orientation

07 / 08 See the exact X12.5 complete a print

X12.5

OFFICIAL FILM

EXACT X12.5 / OFFICIAL O2NAILS FILM

Observe the real machine's print path and understand the evidence a controlled future practice print must preserve.

ORIENT TO

- The exact X12.5 interface and front opening
- A hand positioned for the demonstration

ALLOWED NOW

Watch the optional source or read this English equivalent.

STILL ON HOLD

Do not prepare products, position a hand, start a print, finish a nail or serve a client from this guide.

Optional official source + complete English equivalent in the Owner Orientation Guide

Open the full X12.5 Owner Orientation

08 / 08 Recognize test, care and closeout

X12.5

OFFICIAL FILM

SHARED SYSTEM / REAL O2NAILS PROCEDURE

Understand what output evidence and a disciplined closeout record look like while limiting action to current accepted instructions.

ORIENT TO

- What a real cartridge test looks like
- How output evidence is inspected

ALLOWED NOW

Watch the optional source or read this English equivalent.

STILL ON HOLD

Do not run a test, apply fluid, clean, soak, disassemble, retry or shut down from this guide.
